

A TREE-mendous Word Search!

Scientists estimate that there are more than **73,000** different species of trees on Earth, including 9,000 that haven't been identified yet. Wow!

Can you discover these 22 trees in the word search below? As you find them, *lightly* shade in each letter. When you are done, place the unused letters in order on the blanks at the bottom of the page to answer the riddle.
